- ELECTRONIC SERVICES • on VIATEL — key \*656#. • on AUSSTATS — phone (062) 52 6017.
- on TELESTATS — phone (062) 52 5404.

### MAIN FEATURES

#### WORKING DAYS LOST, AUSTRALIA

June 1985 to August 1987

In August 1987, there were 90,700 working days lost by 51,300 employees in 113 disputes compared with 137,800 working days lost by 51,500 employees in 135 disputes in July 1987.

Of the 113 disputes in August 1987, 12 involved disputes in which more than 1,000 working days were lost, including a continuing national dispute over a wage claim, where 29,100 working days were lost by 4,800 employees.

In the 12 months ended August 1987, 1,172,700 working days were lost, compared with 1,387,800 and 1,254,100 in the 12 months ended August 1986 and August 1985 respectively.

The number of working days lost per thousand employees for the 12 months ended August 1987 showed a decrease in all States, except Victoria and South Australia compared to the numbers for the 12 months ended August 1986.

For the 12 months ended August 1987, the number of working days lost per thousand employees was highest in New South Wales (247) and lowest in South Australia (87).

### EXPLANATORY NOTES

#### Introduction

The statistics relate to disputes which have occurred in *all* industries and involved stoppages of work of ten working days or more at the establishments where the stoppages occurred. Ten working days is equivalent to the amount of ordinary time worked by ten people in one day.

2. The figures of working days lost relate to the losses due to industrial disputes (as defined in paragraph 4) and not to aggregate losses for the economy as a whole. Details shown in this publication refer to all disputes *in progress* during the reference period indicated.

3. The statistics of industrial disputes are compiled mainly from data obtained from employers (both private and government) and trade unions concerning individual disputes and from reports of government authorities. Particulars of some stoppages (for example, those involving a large

number of establishments) may have been estimated and the statistics therefore should be regarded as giving only a broad measure of the extent of industrial disputes (as defined).

#### Definitions

4. For these statistics an *industrial dispute* is defined as a withdrawal from work by a group of employees or a refusal by an employer or a number of employers to permit some or all of their employees to work, each withdrawal or refusal being made in order to enforce a demand, to resist a demand, or to express a grievance.

5. *Employees involved* include employees directly and indirectly involved in disputes. Employees indirectly involved are those thrown out of work at the establishments where the stoppages occurred, but who are not themselves parties to the dispute.

6. Differences between monthly and annual totals of employees involved can occur due to temporary cessations of stoppages that resume in subsequent months. Employees re-involved in this type of dispute are included in the monthly totals.

7. *Working days lost* refer to working days lost by employees directly and indirectly involved in the dispute and figures are generally as reported by parties to the dispute. For some disputes working days lost are estimated on the basis of the number of employees involved and the duration of the dispute.

8. *Working days lost per 1,000 employees* have been compiled from those lost by employees directly and indirectly involved in disputes with stoppages of work of ten working days or more in the establishments where the stoppages occurred. The estimates of numbers of employees are obtained from the Survey of Employment and Earnings and the Labour Force Surveys.

#### Change in methodology

9. The basis for the calculation of working days lost per thousand employees was changed in January 1987 to include estimates of employees from the Survey of Employment and Earnings. They are combined with estimates of the number of employees in Agriculture and in Private households obtained from the Labour Force Survey to derive the denominator. The estimates on this basis included in Tables 4 and 5 have been recalculated for each month back to January 1984 and are available on request. In issues of this publication prior to January 1987 the estimates of numbers of employees were based entirely on Labour Force Survey data. The effect of the change is minimal at the 'all industries' level but is quite significant, in some cases, for individual industry groups.

#### Other ABS publications

10. Users may also wish to refer to the following publications:

*Industrial Disputes, Australia* (6322.0)—issued annually, contains more detailed information including statistics on the cause, method of settlement and duration of industrial disputes.

*Labour Statistics, Australia, 1986* (6101.0)

*The Labour Force, Australia* (6203.0)—issued monthly

*Trade Union Statistics, Australia* 30 June 1986 (6323.0)

*Trade Union Members, Australia, August 1986* (6325.0)

*Employed Wage and Salary Earners, Australia* (6248.0)—issued quarterly

#### Unpublished statistics

11. In some cases, the ABS can also make available information which is not published. This information may be made available in one or more of the following forms: microfiche, photocopy, data tape, computer print-out clerically-extracted tabulation. Generally, a charge is made for providing unpublished information. Inquiries should be made to the officer whose name appears in the *Phone Inquiries* section of the inquiries box at the front of this publication, or to Information Services in the nearest ABS office.

12. Current publications produced by the ABS are listed in the *Catalogue of Publications, Australia* (1101.0). The ABS also issues, on Tuesdays and Fridays, a *Publications Advice* (1105.0) which lists publications to be released in the next few days. The Catalogue and Publications Advice are available from any ABS office.

#### Symbols and other usages

r figures revised since last issue

13. Where estimates have been rounded, discrepancies may occur between sums of the component items and totals.

#### Electronic services

VIATEL. Key \*656# for selected current economic, social and demographic statistics.

AUSSTATS. Thousands of up-to-date time series are available on this ABS on-line service through CSIRONET.

For further information phone the AUSSTATS Help Desk on (062) 52 6017.

TELESTATS. This service provides foreign trade statistics tailored to users' requirements.

Further information is available on (062) 52 5404.
